REGIS COLLECTION

FEATURES AND BENEFITS

- » Vertical Stacker of 10 chairs guaranteed for space saving conforming to OSHA standard

- » Waterfall seat - Features Moulded waterfall seat for additional thigh comfort

- » Stacking bar to enhance the stacking stability of the chairs vertically

- » Engineered heavy duty Nylon chair floor glider for easier movement on carpets

REGIS COLLECTION

FEATURES AND BENEFITS

- » No exposed fasteners and metal anchor T nuts reinforcement – posing no safety hazard to the user

- » Lumbar support providing good spinal support on the back therefore adding more comfort for extended seating hours

- » Contoured seat provides an ergonomic curve comfort by providing inner thigh and back support relieving pressure on the legs.

- » PP Chair Stud to protect the chair frame from scratches

Foam made from Bayer AG formulation that will not harden and will maintain resiliency at all times

REGIS COLLECTION

OPTIONS

» Arm Rest

The Arm Rest features foam padded and upholstered for comfort.

» Action Back

The Action Back options features a ergonomic design Action Back tilt mechanism, which flexes to a flexible comfort back rest for added comfort. Since this element is an integrated part of the chair frame, it need to be requested when the chair is ordered.

» Linking Device

The Linking Device options features the interlocking mechanism able to keep the chair in neat and uniform rows. This non-visible Linking Device will not alter the chair profile or design in anyway when not in use.

REGIS COLLECTION

CHAIR TROLLEY

Model: BC-T500

The trolley is specially designed for easy handling of banquet chairs to save the time and space that is essential for banquet functions and conferences. The quick assembly of the banquet hall is facilitated by such a trolley as chairs are easily stacked on to the trolley. The trolley also prevents the mishandling of the chairs during set up and transportation.

Suitable for all stacking banquet chairs.

Chairs stack 10 high on the trolley.

Materials

Mild steel frame structure is coated in powder epoxy coating (illustrated in black texture coating). Surface of trolley backing is made of plywood and finished in carpet. Heavy duty rubber wheels are 153mm in diameter.

Overall dimensions

Size: 666W x 1445L x 1270Hmm

Features: 4 wheels for easy movement
